Subject: Okanogan Co Juvenile Detention Center

Please forward this message to those attending the Commissioner's meeting with the judges on Feb. 23, 2016. I oppose closing the Okanogan County Juvenile Detention Center. Find the resources for the detention center from other sources in the budget. We need to service the Okanogan County youth in Okanogan County. Sending children out of the county disrupts their education. These kids need to get back to their local school when they have served their detention as soon as possible. Sending children out of county also causes more stress on their families -- many already stressed by the low or no employment prospects here.

Thank you,
Jan Hope
