14  
15 **1-07.2 State Sales Tax**

16 *(June 27, 2011 APWA GSP)*

17  
18 The Washington State Department of Revenue has issued special rules on the State  
19 sales tax. Sections 1-07.2(1) through 1-07.2(3) are meant to clarify those rules. The  
20 Contractor should contact the Washington State Department of Revenue for answers to  
21 questions in this area. The Contracting Agency will not adjust its payment if the  
22 Contractor bases a bid on a misunderstood tax liability.

23  
24 The Contractor shall include all Contractor-paid taxes in the unit bid prices or other  
25 contract amounts. In some cases, however, state retail sales tax will not be included.  
26 Section 1-07.2(2) describes this exception.

27  
28 The Contracting Agency will pay the retained percentage (or release the Contract Bond if  
29 a FHWA-funded Project) only if the Contractor has obtained from the Washington State  
30 Department of Revenue a certificate showing that all contract-related taxes have been  
31 paid (RCW 60.28.051). The Contracting Agency may deduct from its payments to the  
32 Contractor any amount the Contractor may owe the Washington State Department of  
33 Revenue, whether the amount owed relates to this contract or not. Any amount so  
34 deducted will be paid into the proper State fund.

35  
36 **1-07.2(1) State Sales Tax — Rule 171**

37  
38 WAC 458-20-171, and its related rules, apply to building, repairing, or improving streets,  
39 roads, etc., which are owned by a municipal corporation, or political subdivision of the  
40 state, or by the United States, and which are used primarily for foot or vehicular traffic.  
41 This includes storm or combined sewer systems within and included as a part of the  
42 street or road drainage system and power lines when such are part of the roadway  
43 lighting system. For work performed in such cases, the Contractor shall include  
44 Washington State Retail Sales Taxes in the various unit bid item prices, or other contract  
45 amounts, including those that the Contractor pays on the purchase of the materials,  
46 equipment, or supplies used or consumed in doing the work.

47  
48 **1-07.2(2) State Sales Tax — Rule 170**

49  
50 WAC 458-20-170, and its related rules, apply to the constructing and repairing of new or  
51 existing buildings, or other structures, upon real property. This includes, but is not  
52 limited to, the construction of streets, roads, highways, etc., owned by the state of

1 Washington; water mains and their appurtenances; sanitary sewers and sewage  
2 disposal systems unless such sewers and disposal systems are within, and a part of, a  
3 street or road drainage system; telephone, telegraph, electrical power distribution lines,  
4 or other conduits or lines in or above streets or roads, unless such power lines become a  
5 part of a street or road lighting system; and installing or attaching of any article of  
6 tangible personal property in or to real property, whether or not such personal property  
7 becomes a part of the realty by virtue of installation.

8  
9 For work performed in such cases, the Contractor shall collect from the Contracting  
10 Agency, retail sales tax on the full contract price. The Contracting Agency will  
11 automatically add this sales tax to each payment to the Contractor. For this reason, the  
12 Contractor shall not include the retail sales tax in the unit bid item prices, or in any other  
13 contract amount subject to Rule 170, with the following exception.

14  
15 Exception: The Contracting Agency will not add in sales tax for a payment the Contractor  
16 or a subcontractor makes on the purchase or rental of tools, machinery, equipment, or  
17 consumable supplies not integrated into the project. Such sales taxes shall be included  
18 in the unit bid item prices or in any other contract amount.

19  
20 **1-07.2(3) Services**

21  
22 The Contractor shall not collect retail sales tax from the Contracting Agency on any  
23 contract wholly for professional or other services (as defined in Washington State  
24 Department of Revenue Rules 138 and 244).

25  
26 **Permits and Licenses**

27  
28 Section 1-07.6 is supplemented with the following:

29

32 Department of Ecology for the operations in the designated County pit.  
33 A Temporary Air Quality Permit for Rock Crushing must be approved by WDOE and a  
34 copy of the permits shall be submitted to the Contracting Agency before crushing  
35 operations may proceed.

36

38 for Rock Crushing. Violation of those conditions **will result in a mandatory shut**  
39 **down** in the crushing operation.

40  
41  
42  
43 **Load Limits**

44  
45 (March 13, 1995)  
46 Whenever the Contractor obtains materials from a source other than that provided by the  
47 Contracting Agency, or provides a source for materials not designated to come from a  
48 source provided by the State and the location of the source necessitates hauling on other  
49 than State Highways, the Contractor shall, at the Contractor's expense, make all  
50 arrangements for the use of the haul routes.

**1-09.2(5) Measurement**

*(May 2, 2017 APWA GSP)*

Revise the first paragraph to read:

**Scale Verification Checks** – At the Engineer's discretion, the Engineer may perform verification checks on the accuracy of each batch, hopper, or platform scale used in weighing contract items of Work.

**Payment**

Section 1-09.2(6) is revised to read as follows:

(January 3, 2011)

1 Unless otherwise specified, the Contracting Agency will pay for no materials received  
2 by weight unless they have been weighed in accordance with the requirements of  
3 this section.  
4  
5 Unit contract prices for the various pay items of the project cover all costs related to  
6 weighing and proportioning materials for payment. These costs include those for  
7 furnishing, installing, certifying, maintaining and operating scales for initial weighing,  
8 those for extra haul distance and time involved in complying with confirmation testing  
9 requirements, and those for any other related item specified in this section.

10  
11 **1-09.3. Scope of Payment**

12  
13 Section 1-09.3 is supplemented with the following:

14  
15 **(August 7, 2017)**  
16 **Fuel Cost Adjustment**  
17 **General**

18 The Contracting Agency will make a fuel cost adjustment, either a credit or a  
19 payment, for qualifying changes in the index price of on-highway diesel fuel. The  
20 adjustment will be applied to partial payments made according to Section 1-09.9.

21  
22 The adjustment is not a guarantee of full compensation for fuel price changes. Any  
23 adjustment provided by this provision shall not obligate the Contracting Agency for  
24 any costs due solely to changes in fuel costs beyond the amount adjusted by this  
25 provision. The Contracting Agency does not guarantee that fuel will be available at  
26 the base fuel cost or monthly fuel cost. No additional adjustment will be made for  
27 rates of fuel consumption or actual fuel types that differ from those specified for the  
28 purpose of determining the adjustment.

29  
30 For the purpose of calculating the adjustment, the Base Fuel Cost shall be the  
31 Weekly fuel price from the **U.S. Energy Information Administration** website. The  
32 website location and directions are as follows:

- 33  
34 • <http://www.eia.gov/petroleum/gasdiesel/>  
35 • On the web page, click on the **West Coast less California**, listed under  
36 the heading **U.S On-Highway Diesel Fuel Prices\*(dollar per gallon)** at

39 • Click on the fuel price history found under the column heading **View**  
40 **History** for the line **Diesel (On-Highway) – All Types**.  
41 • On this web page obtain the nearest weekly fuel cost for the Monday  
42 occurring three weeks prior to the date that bids are opened. This weekly  
43 fuel cost becomes the Base Fuel Cost and is fixed for the duration of the  
44 Contract and will be used in calculating all adjustments.

45  
46 The Monthly Fuel Cost shall be the most recent Monthly fuel price from the U.S.  
47 Energy Information Administration website. The website location and directions are  
48 as follows:

- 49  
50 • <http://www.eia.gov/petroleum/gasdiesel/>

**Measurement**

No adjustment will be made if the Monthly Fuel Cost is within 10 percent of the Base Fuel Cost. No adjustment will be made for work performed after the authorized Time for Completion.

If the Monthly Fuel Cost is greater than or equal to 110% of the Base Fuel Cost, then:

$$\text{Adjustment} = (\text{Monthly Fuel Cost} - (1.10 \times \text{Base Fuel Cost})) \times Q$$

If the Monthly Fuel Cost is less than or equal to 90% of the Base Fuel Cost, then:

$$\text{Adjustment} = (\text{Monthly Fuel Cost} - (0.90 \times \text{Base Fuel Cost})) \times Q$$

Where  $Q = \sum ((\text{Fuel Usage Factor for each Eligible Bid Item}) \times (\text{Quantity paid in the current months progress estimate for each Eligible Bid Item}))$  for all Eligible Bid Items listed below:

Eligible Bid Item	Fuel Usage Factor
½" Special Crushed Coverstone	0.70 gal/ton
1 ¼" Crushed Surfacing Base Course	0.70 gal/ton
Crushed Surfacing Top Course	0.70 gal/ton

**Payment**

Payment will be made for the following bid item when included in the bid proposal:

“Fuel Cost Adjustment”, by calculation.

To provide a common proposal for all bidders, the Contracting Agency has entered an amount in the proposal to become a part of the Contractor’s total bid.

11 approved dust control measures whenever dust conditions are present, including  
12 weekends and holidays.

13 **Dust control systems must be in place prior to and maintained during operations**

14 When operations result in dust conditions that might, in the opinion of the County Engineer,  
15 be detrimental to air quality of adjacent property, or hazardous to public travel on the  
16 adjacent public roadways, the Contractor shall increase the dust control measures. In the  
17 event of a dispute, the determination of the Engineer or his representative is final. The  
18 operations shall be shut down when water is not being supplied to emission points or when  
19 the wind is strong enough that best efforts to keep dust from leaving the project area are  
20 not effective. The Engineer or designated representative has the right to and will issue a  
21 verbal and or written order to stop work when in his opinion the Contractor fails to have  
22 adequate dust control.  
23

24 Precautions shall be taken to prevent fugitive dust from becoming airborne. The plant  
25 operator shall maintain and operate the site to minimize emissions. At no time during the  
26 operation shall the opacity of any fugitive emission on the job site exceed 10% for more  
27 than three minutes in any one-hour.

28 No particulate matter from the job site shall be deposited beyond the property line to  
29 interfere with the use and enjoyment of the property upon which the material is deposited.

**Washington State Department of Labor and Industries**  
**Policy Statement**  
**(Regarding the Production of "Standard" or "Non-standard" Items)**

Below is the department's (State L&I's) list of criteria to be used in determining whether a prefabricated item is "standard" or "non-standard". For items not appearing on WSDOT's predetermined list, these criteria shall be used by the Contractor (and the Contractor's subcontractors, agents to subcontractors, suppliers, manufacturers, and fabricators) to determine coverage under RCW 39.12. The production, in the State of Washington, of non-standard items is covered by RCW 39.12, and the production of standard items is not. The production of any item outside the State of Washington is not covered by RCW 39.12.

1. Is the item fabricated for a public works project? If not, it is not subject to RCW 39.12. If it is, go to question 2.
2. Is the item fabricated on the public works jobsite? If it is, the work is covered under RCW 39.12. If not, go to question 3.
3. Is the item fabricated in an assembly/fabrication plant set up for, and dedicated primarily to, the public works project? If it is, the work is covered by RCW 39.12. If not, go to question 4.
4. Does the item require any assembly, cutting, modification or other fabrication by the supplier? If not, the work is not covered by RCW 39.12. If yes, go to question 5.
5. Is the prefabricated item intended for the public works project typically an inventory item which could reasonably be sold on the general market? If not, the work is covered by RCW 39.12. If yes, go to question 6.
6. Does the specific prefabricated item, generally defined as standard, have any unusual characteristics such as shape, type of material, strength requirements, finish, etc? If yes, the work is covered under RCW 39.12.

Any firm with questions regarding the policy, WSDOT's Predetermined List, or for determinations of covered and non-covered workers shall be directed to State L&I at (360) 902-5330.

**WSDOT's  
Predetermined List for  
Suppliers - Manufactures - Fabricator**

Below is a list of potentially prefabricated items, originally furnished by WSDOT to Washington State Department of Labor and Industries, that may be considered non-standard and therefore covered by the prevailing wage law, RCW 39.12. Items marked with an X in the "YES" column should be considered to be non-standard and therefore covered by RCW 39.12. Items marked with an X in the "NO" column should be considered to be standard and therefore not covered. Of course, exceptions to this general list may occur, and in that case shall be evaluated according to the criteria described in State and L&I's policy statement.

Prefabricated items specifically produced for public works projects that are prefabricated in a county other than the county wherein the public works project is to be completed, the wage for the offsite prefabrication shall be the applicable prevailing wage for the county in which the actual prefabrication takes place.

It is the manufacturer of the prefabricated product to verify that the correct county wage rates are applied to work they perform.

See RCW [39.12.010](#)

(The definition of "locality" in RCW [39.12.010](#)(2) contains the phrase "wherein the physical work is being performed." The department interprets this phrase to mean the actual work site.

Policy Statements  
(Regarding Production and Delivery of Gravel, Concrete, Asphalt, etc.)**

**WAC 296-127-018 Agency filings affecting this section**

**Coverage and exemptions of workers involved in the production and delivery of gravel, concrete, asphalt, or similar materials.**

(1) The materials covered under this section include but are not limited to: Sand, gravel, crushed rock, concrete, asphalt, or other similar materials.

(2) All workers, regardless of by whom employed, are subject to the provisions of chapter 39.12 RCW when they perform any or all of the following functions:

(a) They deliver or discharge any of the above-listed materials to a public works project site:

(i) At one or more point(s) directly upon the location where the material will be incorporated into the project; or

(ii) At multiple points at the project; or

(iii) Adjacent to the location and coordinated with the incorporation of those materials.

(b) They wait at or near a public works project site to perform any tasks subject to this section of the rule.

(c) They remove any materials from a public works construction site pursuant to contract requirements or specifications (e.g., excavated materials, materials from demolished structures, clean-up materials, etc.).

(d) They work in a materials production facility (e.g., batch plant, borrow pit, rock quarry, etc.) which is established for a public works project for the specific, but not necessarily exclusive, purpose of supplying materials for the project.

(e) They deliver concrete to a public works site regardless of the method of incorporation.

(f) They assist or participate in the incorporation of any materials into the public works project.

(3) All travel time that relates to the work covered under subsection (2) of this section requires the payment of prevailing wages. Travel time includes time spent waiting to load, loading, transporting, waiting to unload, and delivering materials. Travel time would include all time spent in travel in support of a public works project whether the vehicle is empty or full. For example, travel time spent returning to a supply source to obtain another load of material for use on a public works site or returning to the public works site to obtain another load of excavated material is time spent in travel that is subject to prevailing wage. Travel to a supply source, including travel from a public works site, to obtain materials for use on a private project would not be travel subject to the prevailing wage.

(4) Workers are not subject to the provisions of chapter 39.12 RCW when they deliver materials to a stockpile.

(a) A "stockpile" is defined as materials delivered to a pile located away from the site of incorporation such that the stockpiled materials must be physically moved from the stockpile and transported to another location on the project site in order to be incorporated into the project.

(b) A stockpile does not include any of the functions described in subsection (2)(a) through (f) of this section; nor does a stockpile include materials delivered or distributed to multiple locations upon the project site; nor does a stockpile include materials dumped at the place of incorporation, or adjacent to the location and coordinated with the incorporation.

(5) The applicable prevailing wage rate shall be determined by the locality in which the work is performed. Workers subject to subsection (2)(d) of this section, who produce such materials at an off-site facility shall be paid the applicable prevailing wage rates for the county in which the off-site facility is located. Workers subject to subsection (2) of this section, who deliver such materials to a public works project site shall be paid the applicable prevailing wage rates for the county in which the public works project is located.
