Subject: Comprehensive plan comments

I have lived in the Methow Valley for over 40 years. I am a respected general contractor and have built many homes in the valley. I love this place, raised my children here and see that some of them want to return and raise their new families here. Why? Because of the beauty, quality of life, rural character and the community of caring people.

The opportunity for me to read and study the comprehensive plan, and the Methow Valley Citizen's Council's comments and suggestions of this plan is truly a gift. I am so grateful for all of the people who have given time and thought to our well being in this county. I am so very much impressed and in agreement of the Council's suggestions and concerns. They have thoroughly thought this out. The Alternative #4 is brilliant and concise. It seems to embrace many of our concerns in taking our county into the future with intelligence and integrity. Please consider this alternative as a safe and sound plan. Thank you, Bob Elk Belgard
