Subject: Comprehensive Plan and DEIS Comments

Thank you for considering my comments about the comprehensive plan.

- Shoreline and waterfront access for the public can be maintained without impacting private property if the guidelines are established prior to development.
- Dark skies! We are so fortunate to live in a community where this is even an option. But not for long if we don't specifically address it.
- Ridgetop development. This is often an out-of-town-limits issue, and since some private land owners don't understand the negative impact of building in the sightline of whole neighborhood or towns, we need the county's help.
- Open roads. Let's not wait until someone can't escape from fire because of a locked gate.

Thank you,
